Hyperwood

VISUAL IDENTITY / EDITION 1.0

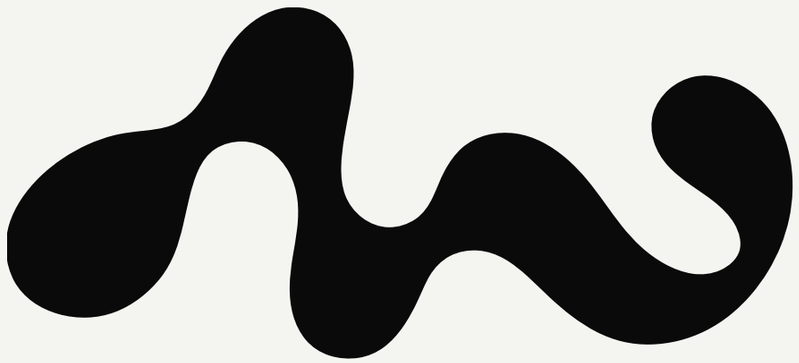

Brand Guidelines

MORPH / OCTOBER 2026

The identity system

One recognizable symbol.
A system that can move around it.

01 **Foundations** 03–04

02 **Logo** 05–12

03 **Color** 13–16

04 **Typography & layout** 17–20

05 **Graphics & motion** 21–25

06 **Applications** 26–33

07 **Files & finalization** 34–35

Connection in motion

Liquid in expression.
Clear in use.

Morph gives Hyperwood a continuous visual gesture. The identity pairs this expressive shape with precise typography and deliberate space.

WORKING BRAND CONTEXT

An emerging blockchain ecosystem for builders and its community.
Ethereum/EVM compatibility and network architecture still require confirmation.

Voice & messaging

01

Clear

Use familiar words. Explain network terms when readers first encounter them.

02

Inviting

Give people a useful next step.
Speak to builders and newcomers directly.

03

Measured

State what a release does.
Support technical claims with evidence.

PROPOSED CAMPAIGN LINE

Build what comes next.

EXAMPLE ACTIONS

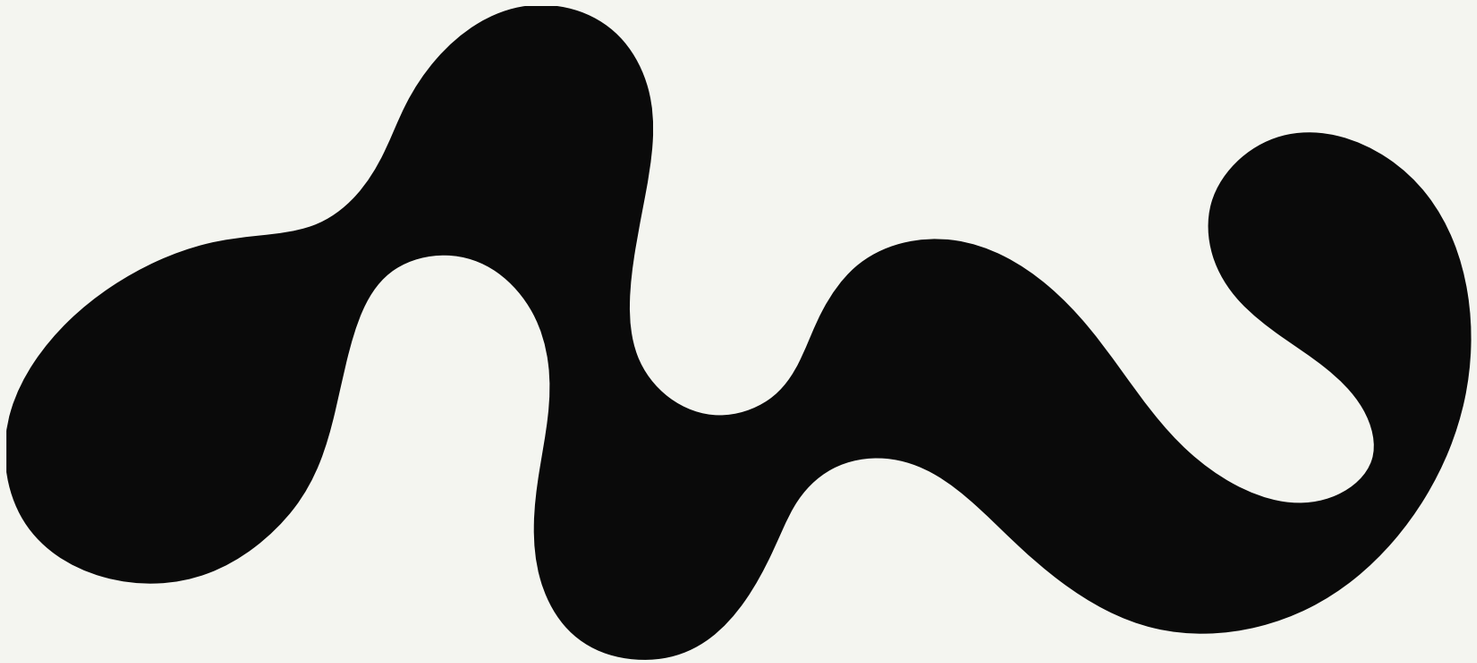

Explore Hyperwood Read the docs Join the community

The Morph mark

A continuous shape with a distinctive crest and curling terminal.

The master symbol

CONTINUOUS SILHOUETTE

A single connected form creates the brand signature.

THREE RECOGNITION CUES

The tall first crest
The low central bend
The rounded right curl

MASTER ARTWORK

Use the supplied SVG. Keep the contour, orientation, and proportions intact.

Logo lockups

PRIMARY / STACKED

Brand introductions, cover pages,
posters, and large feature areas.

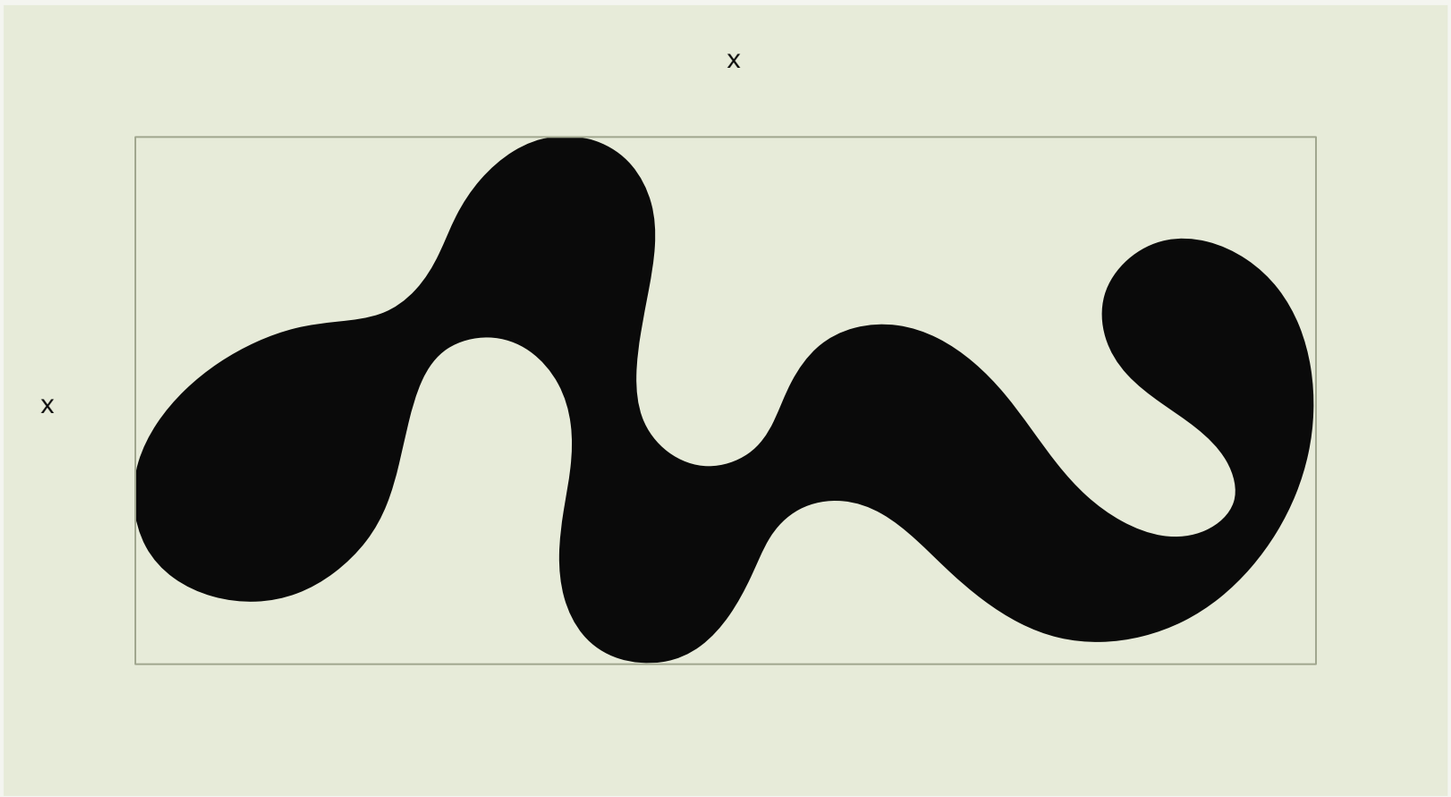

SECONDARY / HORIZONTAL

Navigation, documents,
partnership rows, and narrow spaces.

WORDMARK / CONTEXTUAL USE

Clear space & proportions

1/4 OF SYMBOL HEIGHT

x = h / 4

Keep at least x around the outer edge of the logo. Measure to the nearest text, artwork, or trim edge.

Scale the complete lockup as one object. The supplied files define the symbol-to-wordmark spacing.

Small sizes & app icons

SYMBOL

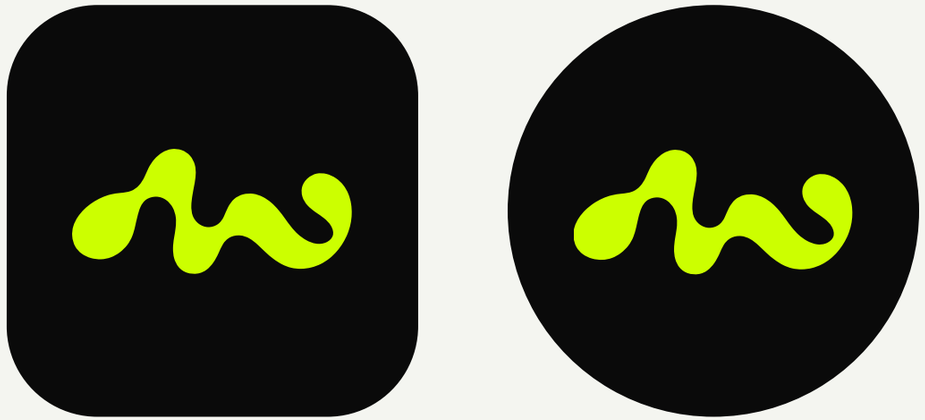

112 px

64 px

32 px

Minimum standalone width: 32 px / 6 mm.
Below this, use the dedicated app tile.

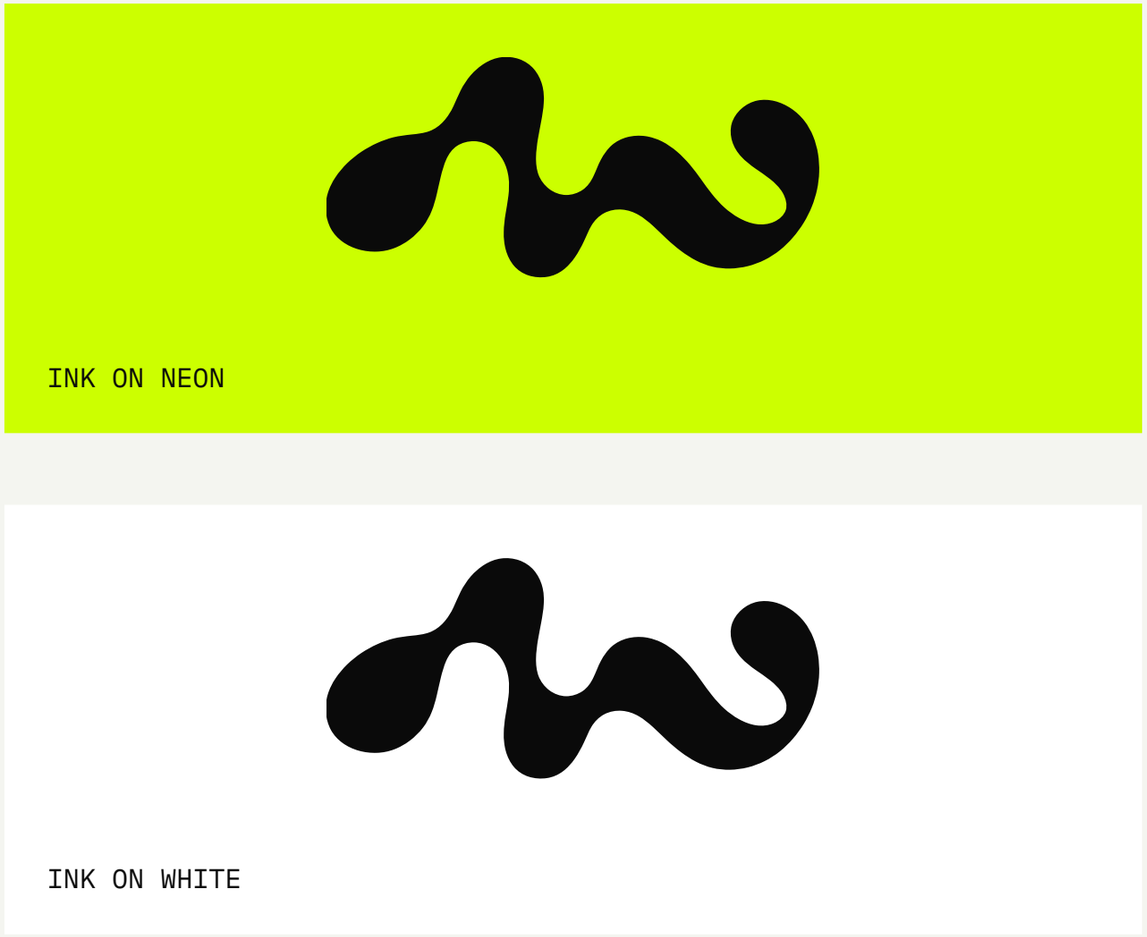

APP & AVATAR

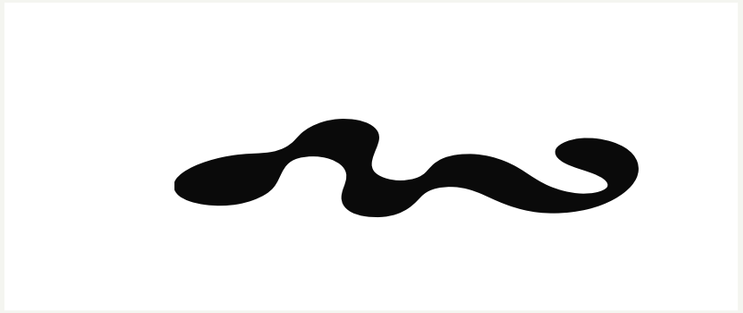

The mark occupies about 68% of the tile width.
Let the platform apply its own corner mask.

Stacked lockup: 120 px / 25 mm minimum width.
Horizontal lockup: 160 px / 35 mm. Wordmark: 100 px / 22 mm.
Check real output size. Favicons are a separate 16–48 px export.

Logo colorways

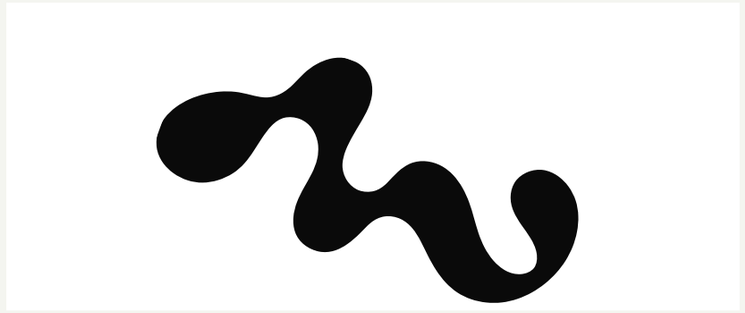

Logo integrity

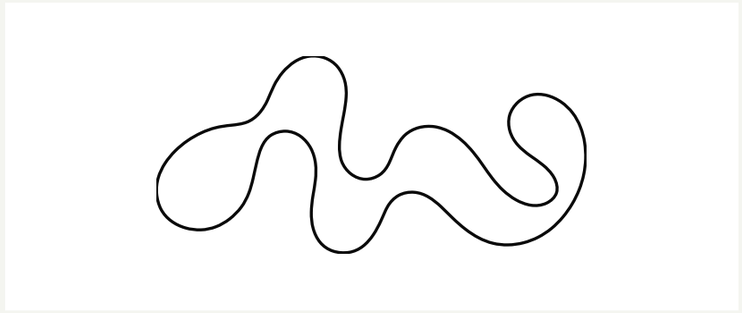

AVOID / DISTORTION

Keep the original aspect ratio.

AVOID / ROTATION

Keep the approved orientation.

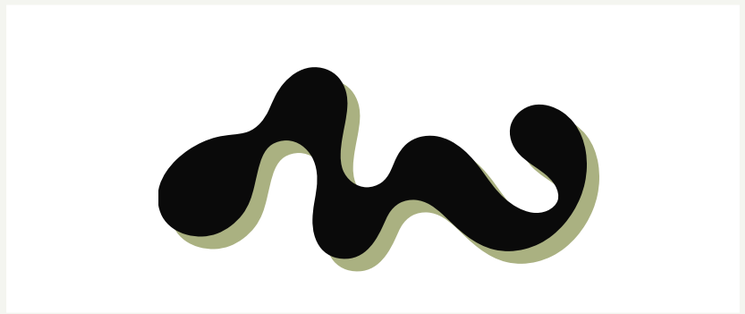

AVOID / OUTLINE

Use the solid silhouette.

AVOID / LOW CONTRAST

Choose a tested color pairing.

AVOID / ADDED EFFECTS

Keep effects outside the logo.

AVOID / REARRANGEMENT

Use a supplied lockup.

Naming & partnerships

ONE MASTER BRAND

Hyperwood

Use this capitalization in text.
Keep product descriptors separate from the mark.

Hyperwood Docs
Hyperwood Explorer

DESCRIPTOR EXAMPLES / NOT RELEASE CLAIMS

Balance optical size. Use neutral colorways.
Keep at least 2x between partner identities.
Place “Built on Hyperwood” as separate text only when the relationship is verified.

Electric clarity

A bright signal, grounded by ink and quiet neutral space.

Core palette

Hyper Neon

#CCFF00

RGB 204 / 255 / 0

Ink

#0A0A0A

RGB 10 / 10 / 10

White

#FFFFFF

RGB 255 / 255 / 255

Paper

#F4F5F0

RGB 244 / 245 / 240

Slate

#62685D

RGB 98 / 104 / 93

Line

#D9DCD2

RGB 217 / 220 / 210

Contrast & functional color

Aa	Aa	Aa	Aa
16.85:1	19.80:1	5.74:1	1.18:1
Neon on Ink	White on Ink	Slate on White	Neon on White
PASS	PASS	PASS	FAIL

Body text: at least 4.5:1. Large text: at least 3:1.
Keep Neon out of text on white. Pair every state color with a label or icon.

- Success #177A46
- Warning #A86200
- Error #B42318

Color balance & reproduction

EDITORIAL & PRODUCT SURFACES

Use neutral surfaces for reading and data.
Reserve neon for recognition, selected actions,
and intentional moments of emphasis.

CAMPAIGN SURFACES

Large neon fields are welcome in covers,
social graphics, signage, and short messages.

PRINT PRODUCTION

RGB ≠ ink

The digital neon is #CCFF00.
A CMYK conversion will look duller.
Ask the printer for a fluorescent
spot-ink drawdown and approve
it on the final material.

For process-only jobs, use the printer's
ICC conversion and approve a proof.
Use 100K for small black text.

A steady voice

Rounded, open letterforms bring clarity to an expressive identity.

Type families

Manrope

Headlines, body copy, navigation, and labels.
Use Regular 400 and Bold 700 as the core pair.
Medium 500 supports interface labels.

Aa Bb Cc Dd Ee
0123456789

TECHNICAL COMPANION

IBM Plex Mono

Addresses, code, transaction identifiers, and compact technical metadata.

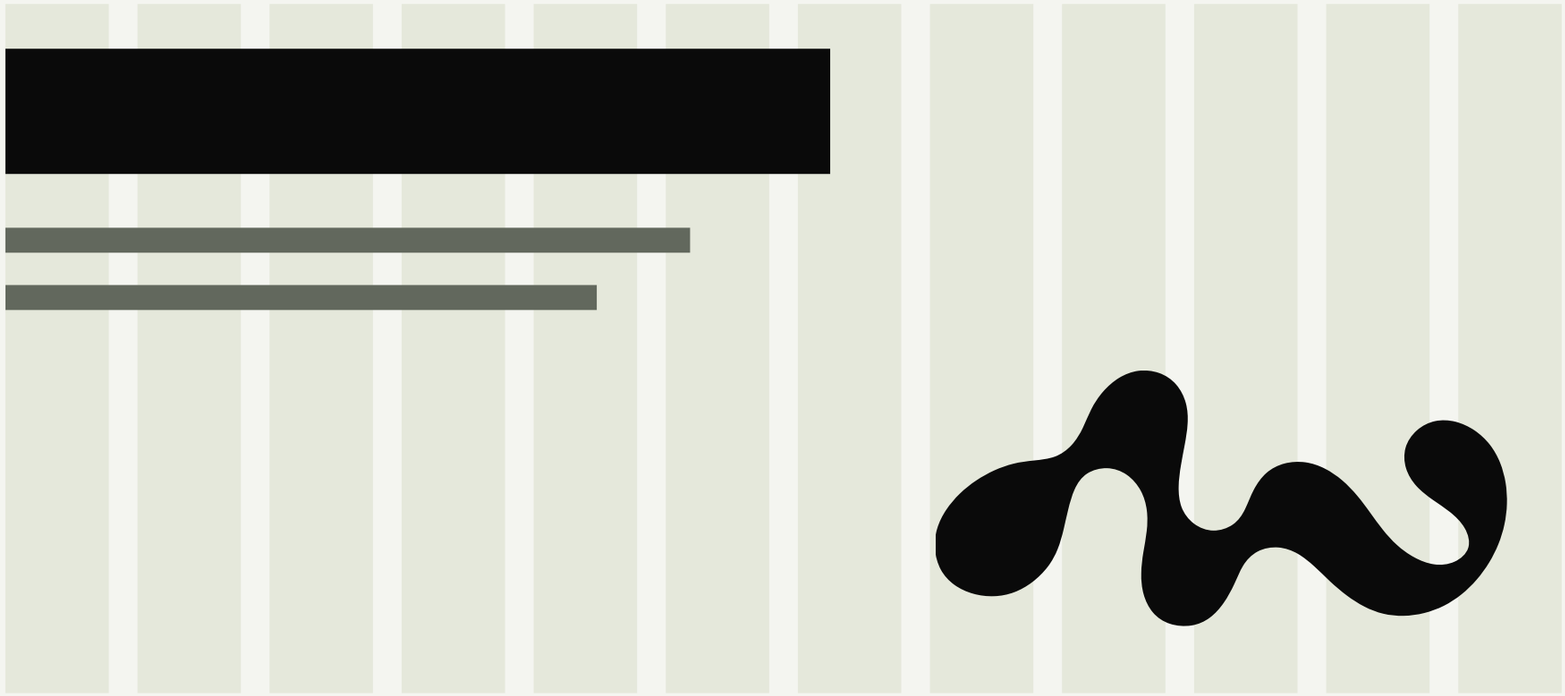

```

Hierarchy & typesetting

DISPLAY	64 / 68 / BOLD	**Build what comes next.**
HEADING	40 / 48 / BOLD	**A new connection**
SUBHEADING	24 / 32 / BOLD	**Explore the ecosystem**
BODY	16 / 24 / REGULAR	Clear information for every next step.
METADATA	12 / 16 / MONO	NETWORK / EXAMPLE

Layout & spacing

12-COLUMN DESKTOP GRID

64 PX MARGIN / 24 PX GUTTER / 8 PX BASE

Mobile: 4 columns, 20 px margin, 16 px gutter.
Keep one clear focal point. Allow generous space around the logo.

SPACING SCALE

4 8 12
16 24 32
48 64 96

CORNER RADII

8 px for compact elements
16 px for standard surfaces
24 px for large surfaces
Pills for short actions only

The shape in use

Scale, crop, and repeat the master contour to build recognition.

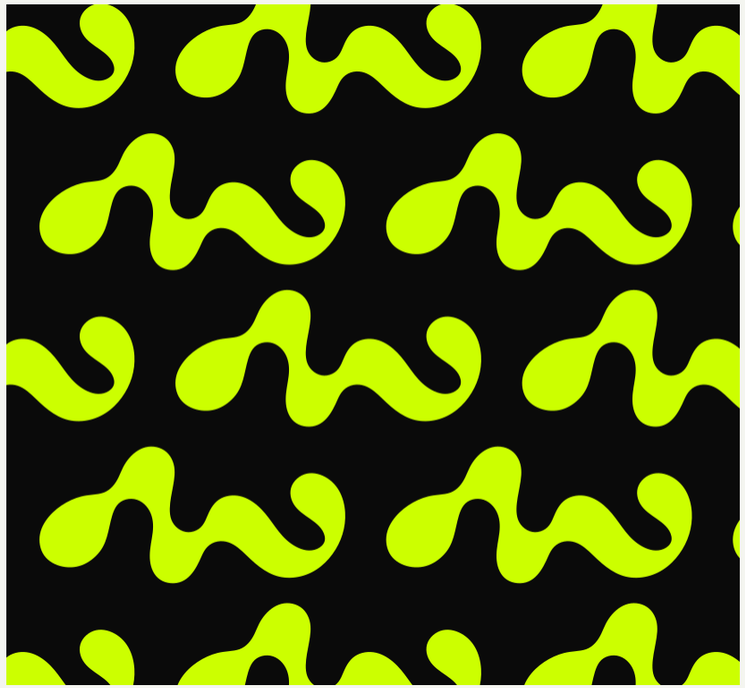

Graphic devices

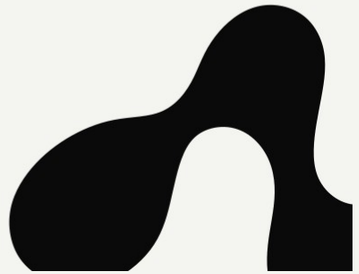

01 / CURRENT CROP

Use one oversized contour.
Keep the official logo separate.

02 / FLOW REPEAT

Repeat at a consistent scale.
Let the spacing establish rhythm.

03 / OPEN FIELD

Leave room for the message.
Anchor the crop to an edge.

Image direction

LIQUID MATERIAL

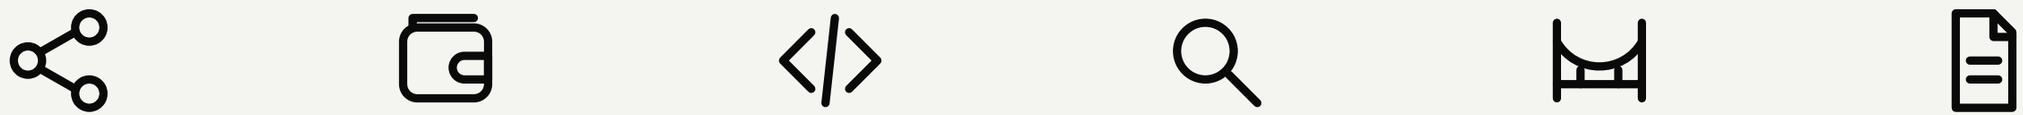

Broad, continuous surfaces.
Glossy dark material.
Neon reflected light.
Strong areas of quiet space.

HUMAN CONTEXT

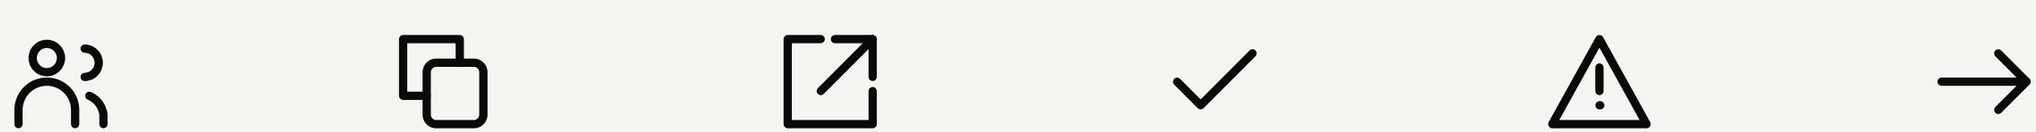

Use candid, licensed images
of people building and sharing.
Favor real settings and natural
light over staged finance imagery.

KEEP LOGOS FLAT

Iconography & information

network wallet code explorer bridge docs

community copy external check warning arrow

24 px grid. 1.75 px stroke. Rounded caps and joins.
Keep interface icons simpler than the brand symbol. Pair unclear icons with text.

Charts use labeled axes and restrained neutral lines. Neon highlights one series or selected point.

Motion behavior

0 ms

200 ms

450 ms

600 ms

REVEAL / 600 MS

A gentle reveal resolves to the exact master silhouette.
Use one continuous movement with a soft stop.
Avoid repeated bouncing or disconnected pieces.

INTERACTION / 180 MS

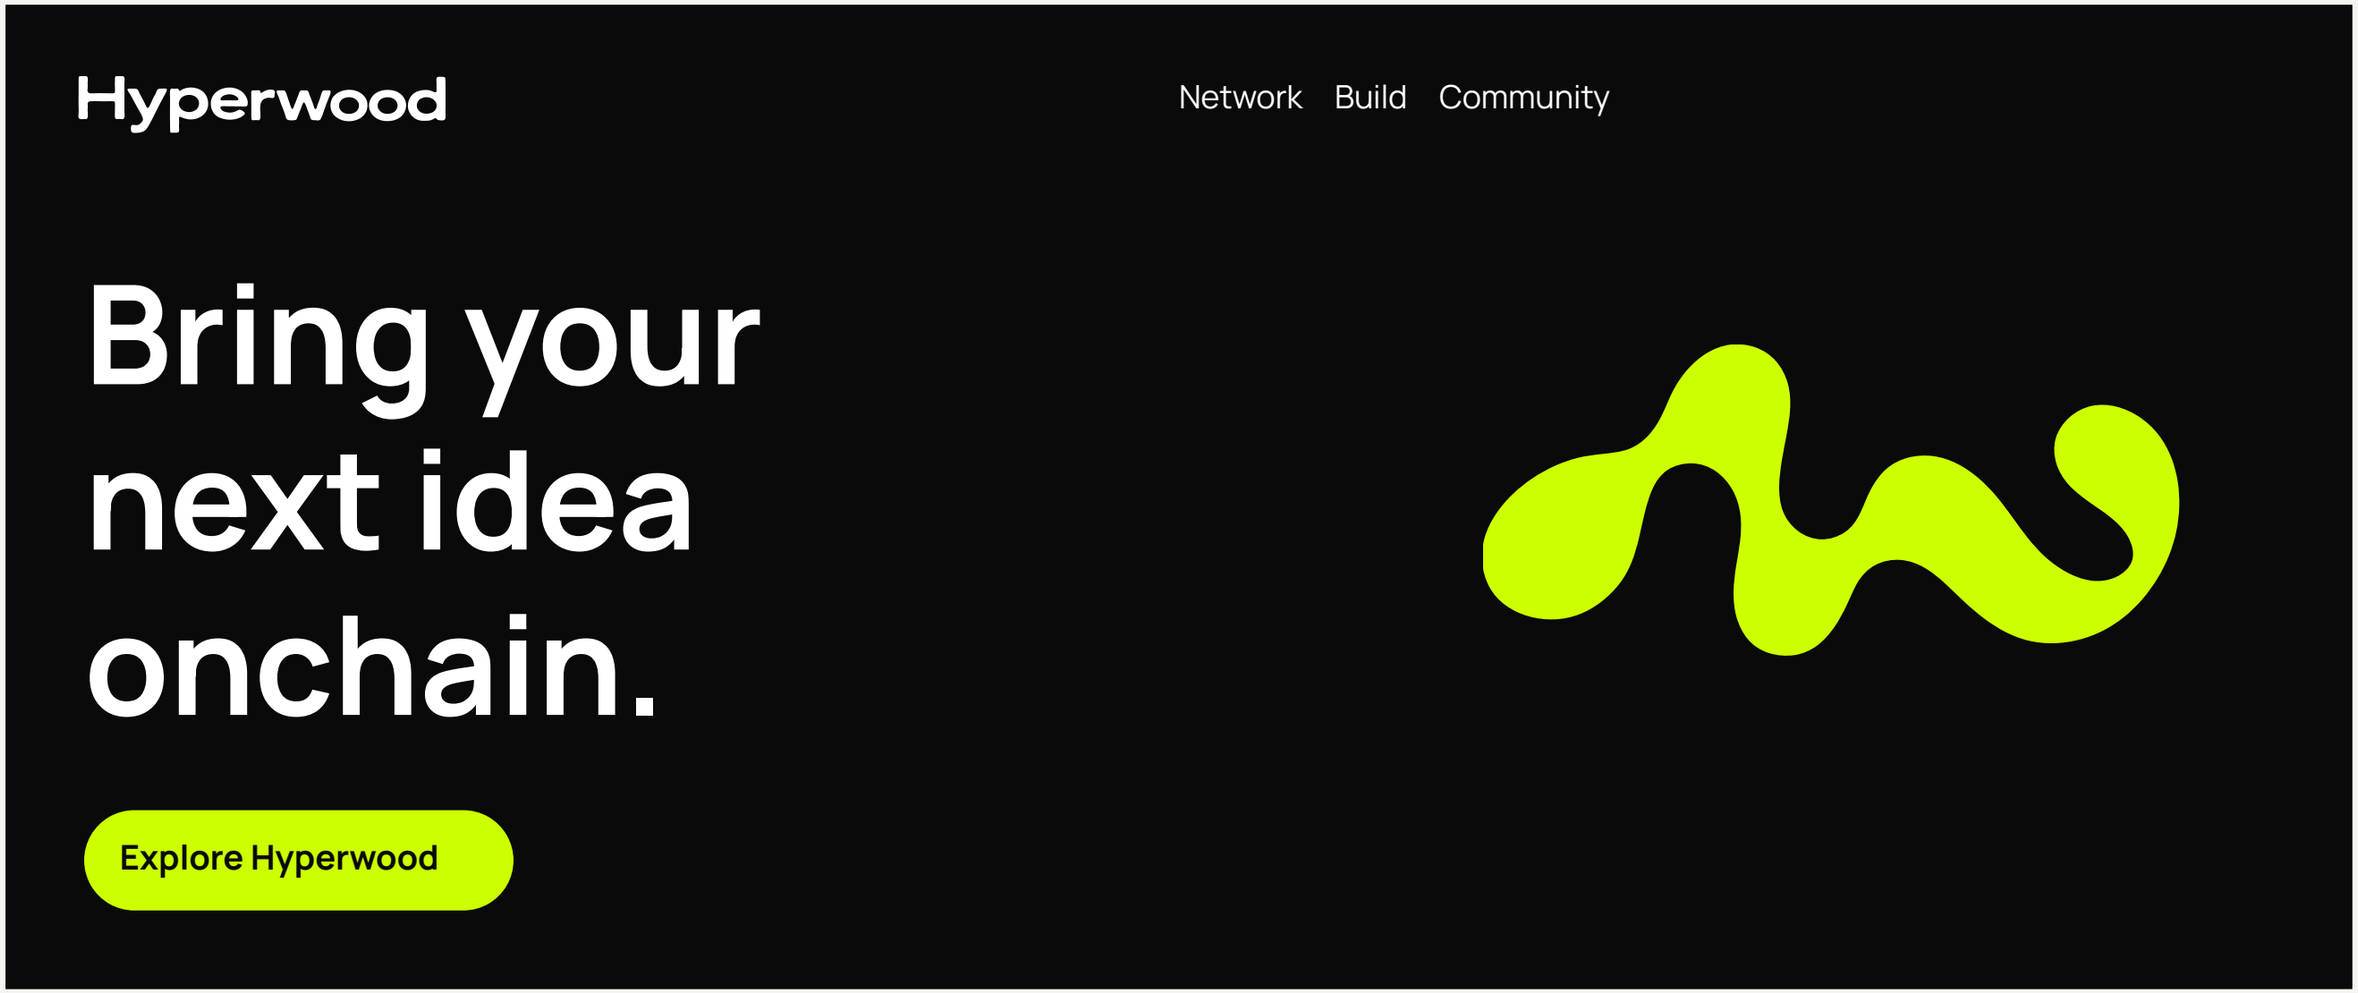

Use a brief color or opacity change.
Disable decorative motion when
reduced motion is requested.

A working identity

Consistent artwork across digital products, content, and physical objects.

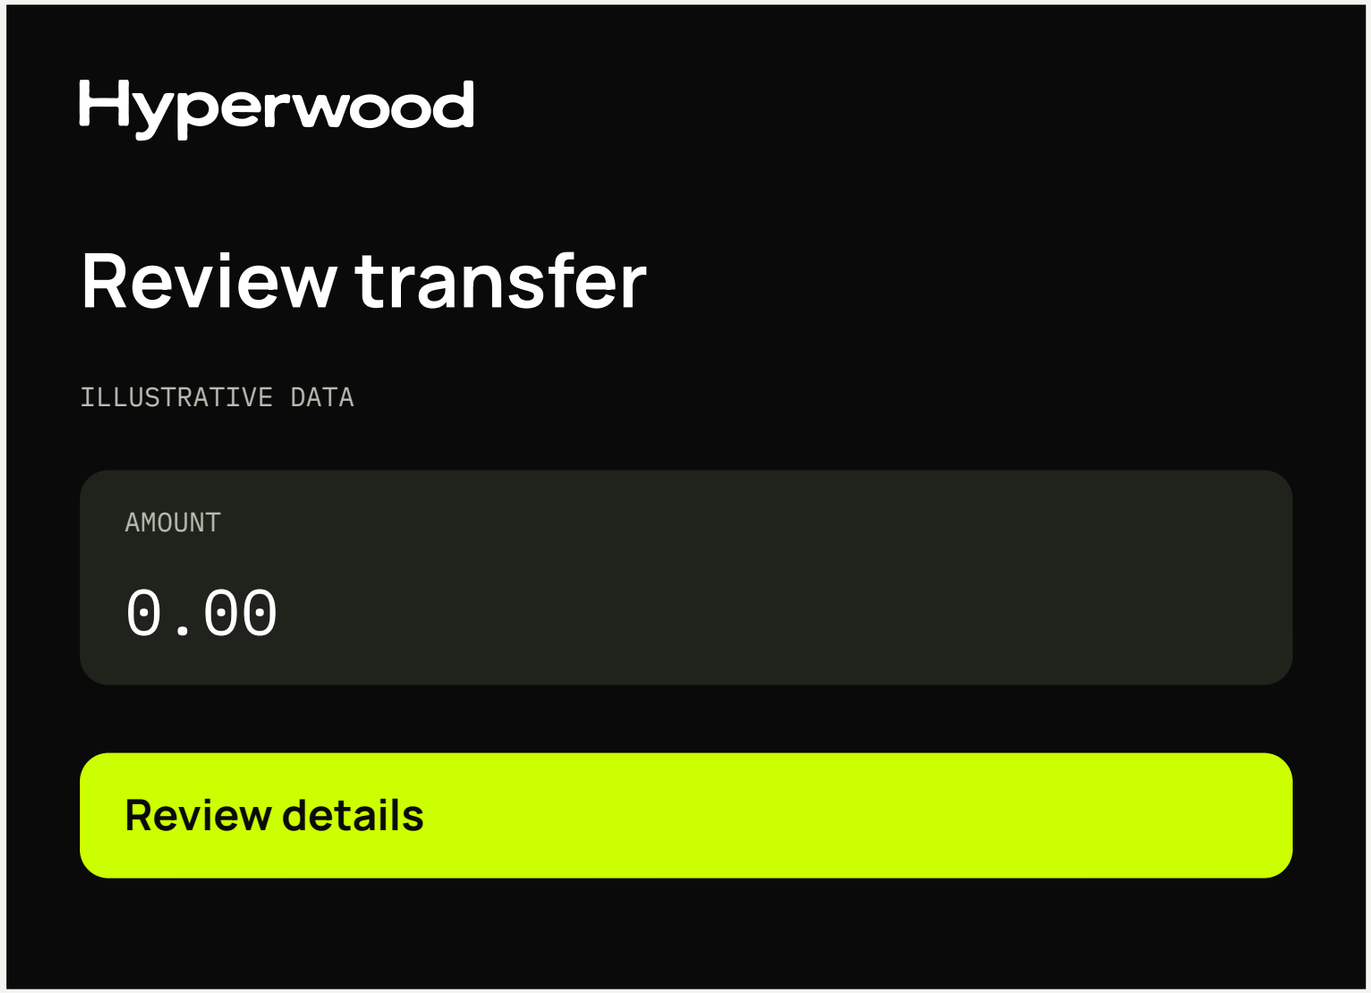

Website direction

CONCEPT / INFORMATION ARCHITECTURE TO CONFIRM

Product interface direction

FUNCTIONS SHOWN ARE CONCEPTUAL

QUIET SURFACES

Keep data on neutral backgrounds.
Use neon for the primary action.
Show network and status in text.

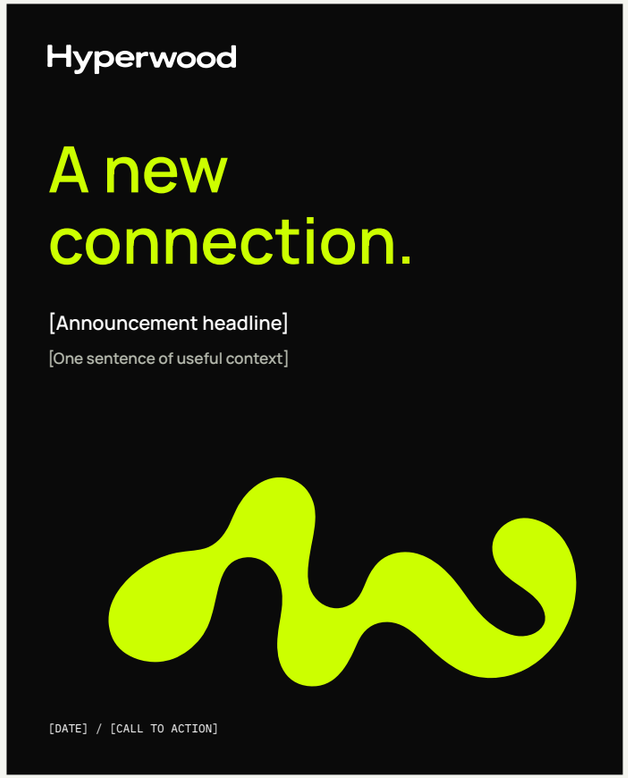

READABLE TRANSACTIONS

Use mono for identifiers.
Offer a full-value copy action.
Keep error recovery specific.
Avoid decorative motion near
amounts or confirmation steps.

Social templates

SQUARE / 1080 × 1080

PORTRAIT / 1080 × 1350

STORY / 1080 × 1920

Use short headlines and one message per asset. Replace all bracketed copy before publication.

Profiles & banners

Hyperwood

AVATAR: 1024 × 1024 / BANNER: 1500 × 500

HYPERWOOD

Use the same symbol across all profiles. Keep the avatar simple. Avoid placing critical copy under the avatar or near banner edges.

Stationery

FRONT

BACK

BUSINESS CARD / 85.6 × 54 MM

3 mm bleed. 4 mm internal safe area.
Replace bracketed contact information.
Keep the master artwork at its original proportions.

A4 LETTERHEAD

Physical applications

MATERIAL

Matte black fabric.
Neon screen print.
Uncoated paper.
Simple hardware.

PRODUCTION

Supply vector artwork.
Approve a material sample before a run.

Presentations & documents

01 / PROJECT UPDATE

A clear heading

One idea per page.
A concise explanation.
A useful next step.

HYPERWOOD

Use the editable guide as a layout reference. Keep data and long-form reading on neutral pages.

Asset handoff

01 / LOGOS

Symbol, wordmark, stacked, horizontal.
Black, white, and neon. SVG + PNG.

02 / APP & SOCIAL

App icon, avatar, banner, and favicons.
Square source art with platform masks.

03 / GRAPHICS

Three graphic devices, liquid artwork,
physical mockup, and 12 SVG icons.

04 / TEMPLATES

Social formats, presentation cover,
business cards, and A4 letterhead.

05 / FONTS

Manrope and IBM Plex Mono.
Font files and license texts.

06 / TOKENS

Color, spacing, type, and motion
values in JSON and CSS.

Release notes & sources

VISUAL SYSTEM / EDITION 1.0

Morph is the selected logo direction.
The supplied master controls every logo use.
Templates include editable placeholder content.

PRODUCT DETAILS TO CONFIRM
